ANTHRACITE STRIKE

The Operators Claim More Men Are
Asking for Work.

IS NO INTERFERENCE

Strikers Gather but Do Not Molest the
Non-Union Men—No Concessions
Will Be Offered to the Men
to Return to Work.

Tamaqua, Sept. 11.—The Lehigh Coal and Navigation company claims more of the striking men have returned to work. No troops were sent out from Manila park. Although a number of strikers gather on the streets the non-union men are not interfered with.

Officials of Lehigh Coal and Navigation company, Philadelphia and Reading Coal and Iron company, and Pennsylvania Coal company ridicule the idea of concessions being granted the striking miners. They say if a settlement is made it must be on basis of unconditional surrender on the part of the strikers. The officials have been in close touch with President Baer and say they know what they are talking about.

A committee of citizens representing the People's Alliance left here for Harrisburg where they will hold a conference with Governor Stone.

THE IOWA IS AGROUND.

Runs into Land Off the Coast of South America Near Friars Island.

Rio de Janeiro, Sept. 11.—The United States battleship Iowa has run aground near Cape Nossa Senhora de Desterro. The Iowa had just finished target practice and was returning to Friars Island.

The Brazilian minister of marine has ordered a warship to go to the aid of the Iowa.

Cape Nossa Senhora de Desterro is on the island of Santa Catharina, 460 miles southwest of Rio de Janeiro.

The island is about half way between Montevideo, Uruguay, and Rio de Janeiro.

The Iowa is the flagship of the South Atlantic squadron. Rear Admiral Geo. W. Sumner is in command of the South Atlantic station. Captain Thomas Perry commands the Iowa. The cruiser Atlanta is the only other warship in the South Atlantic squadron.

PRINCE JOSEPH INDICTED.

He Is Charged With Violation of Criminal Law of England.

London, Sept. 11.—The grand jury in Old Bailey has returned a true bill against Prince Francis Joseph of Braganza, lieutenant in the Seventh Austria Hussars, and who was member of the Austro-Hungarian mission to the coronation of King Edward, charged with misconduct under the criminal law amendment. Hearing of the charges brought against Prince Francis Joseph of Braganza and other men took place in Southwark police station court early in July, and attracted much attention. Sir Edward Clark, former solicitor general, defended the prince. The prosecutor altered the charge from "felony" to "misconduct under the criminal law amendment." Sir Edward Clark defended the prince. The charge will be conspiracy to rob and blackmail. Strict secrecy was observed by the court officials regarding the exact nature of the charges.

Refused to Commute Sentence.
Austin, Sept. 11.—The governor has declined to commute the death sentence of Vicente Sucedo to life imprisonment. Sucedo is in jail at San Antonio and was convicted of rape of his stepdaughter. He was to have been executed Sept. 5, but was granted a respite of two weeks, and now will be hanged Sept. 19. The governor has addressed a letter to Sheriff Tobin of Bexar county, in which he says he has carefully examined the applications for commutation, and is unable to reach any other conclusion other than that Sucedo is guilty.

Washington Republicans.
Tacoma, Wash., Sept. 11.—The Republican state convention adjourned Wednesday night, after the most exciting contest in the history of the party.

The trouble was over the railroad commission plank in the platform. The platform as reported by the committee was finally adopted. Judge Hadley was nominated for the supreme bench and Cushman Jones and W. E. Humphrey for congress. The adoption of the railway commission plank is considered as a great victory for Gov. McBride.

Lexington Race Course So'd.
Lexington, Ky., Sept. 11.—The Kentucky association Race course has been sold by Charles Green of St. Louis to J. J. Douglass, of Louisville, Ky., for \$40,000. With Douglass are associated other well known turfmen by whom the new race association will be organized for Kentucky and the old racing

track at Cincinnati and the Lexington track will be turned into a circuit for the spring and fall running races, beginning next spring.

To Represent Texas.
Austin, Sept. 11.—The governor has appointed Major General Stacy, Col. Henry Huchings of Austin, Colonel Cecil Lyon of Sherman and Major O. C. Drew of Houston, to represent the Texas Volunteer guard at maneuvers at Fort Riley, Kas. All the southern states will be represented.

FIGHT AT SANTA MARTA.

Revolutionists Mutilate Dead Government Troops and Destroy Railroads.

Kingston, Jamaica, Sept. 11.—The German steamer Valencia from New York, Aug. 23, for Cape Haytien and other ports, which has arrived here from Santa Marta, capital of the department of Magdalena, Colombia, brings news of a victory at Santa Marta by the Colombian revolutionists over the government forces.

Captain Groumeyer of the Valencia, says that last Friday the revolutionists made a desperate attack upon the outskirts of Santa Marta. The government troops were overwhelmed and forced to retreat, leaving behind them 100 dead. Immediately after the withdrawal of the government forces the rebels started to destroy the railroad tracks. They derailed several trains at various points, demolishing engines and cars, the latter being chiefly fruit vans. Several lives were lost in these wrecks.

Saturday the revolutionists occupied the banana district of Senega, where they continued to wreck the railroad at the same time, keeping up their advance toward Santa Marta. When the Valencia sailed from Santa Marta the revolutionists were so near the town that Captain Groumeyer could see the flashes of their guns. Some buildings in Santa Marta were then blazing, having been ignited by the few troops left there to oppose the attack of the revolutionists. The town at that time was expected momentarily to surrender.

Owing to the total destruction of the railroad the Valencia did not get her cargo of fruit at Santa Marta, and because of the seriousness of the situation the captain decided to put into Kingston for instructions.

Officers of the Valencia say that horrible atrocities were committed during the fighting by the rebels, who used machetes. Almost all of the government troops killed were found along the railroad track, their bodies being terribly mutilated.

Santa Marta is entirely cut off from communication with outside points and the residents of the port have sent an appeal by sea to Colon for protection. It is feared that the revolutionists will sack Santa Marta when they capture it. The stores there are closed and the greatest terror prevails.

The attack of the revolutionists was entirely unexpected and owing to their superior numbers the resistance of the government forces was half hearted. Officers of the Valencia do not think the Colombian government can get reinforcements into Santa Marta in time to save the town.

BIDS SARGENT FAREWELL.

Locomotive Firemen Escort Their Grand Master to the Train.

Chattanooga, Tenn., Sept. 11.—The Brotherhood of Locomotive Firemen convened at 9 o'clock Wednesday morning, and immediately adjourned to escort former Grand Master Frank P. Sargent to the depot. The entire convention drew up in line at the depot, and many, with tears in their eyes, bade farewell to Mr. Sargent, who has served the order for seventeen years as grand master. Mr. Sargent was called to Washington by his duties as commissioner of immigration.

In the afternoon the convention got down to work in earnest. The mass of correspondence and resolutions that had accumulated were referred to the proper committees. Practically all the resolutions were in reference to changes in the beneficiary laws of the constitution.

A resolution was introduced providing for the increase in the amount of insurance paid on the death of a member from \$1500 to \$3000. The resolution was referred to the committee on constitution and bylaws.

It is the general opinion of the grand officers that the session of the convention will extend over into the third week.

It is seventeen years since the brotherhood has been called on to elect a grand master, and there will be a spirited contest for the place. Acting Grand Master Hannahan is an avowed candidate.

There are now 620 delegates in attendance, including a number from Canada and Mexico.

New Hampshire Democrats.

Concord, N. H., Sept. 11.—The Democrats of New Hampshire met in state convention here Wednesday and unanimously nominated for governor Hon. Henry F. Hollis of Concord, chairman of the state central committee. The platform adopted by the conven-

Grand Opera House.

tion rearmms allegiance to the essential principles of Democracy of the nation. It demands "the immediate abolition of all tariff on trust-made articles."

It also demands the stringent enforcement of all laws against combines, free trade with insular territories, independence of the Philippine islands and a reduction of duties on Cuban imports.

The resolutions also declare for a law authorizing towns and cities, by a majority vote, to license and control the sale of intoxicating liquors.

The convention by a large majority refused to favor woman suffrage.

Deliberate Suicide.

San Antonio, Sept. 11.—Mrs. M. Koch, aged 66 years, whose husband accidentally shot and killed himself six months ago near this city, deliberately walked in front of an east-bound Sunset train near D'Hannis and was thrown from the track and probably fatally injured. Ever since the death of her husband the aged lady has been brooding over the accident and has frequently been heard to say that there was nothing in this world for her to live for.

The man who enjoys the protec-
tion of the government and has a

ment of its affairs, and, if he has
children, sends them to a free

The Denison Herald insists that
this State needs industrial educa-
tion worse than any State in the
Union. The reasons are very ap-
parent. The people have educated
their children to be lawyers and
doctors and teachers till the sup-
ply is greater than the demand,
few of them are accomplishing
much more than to make both
ends meet. All skilled laborers
are doing well and prospering.
The state needs factories, and if
she had the skilled labor she
would go heavily into the manu-
facturing business.—Brenham

before his mother knew of his predicament.

CONDITION OF CROPS

Corn Shows an Average Slightly Above Ten-Year Record.

OAT CROP IS LIGHT

Barley and Rye Show Good Average. Sugar Cane Improved in Only One State, Texas and Arkansas Above Average.

Washington, D. C., Sept. 11.—The monthly report of the statistician of the department of agriculture shows the average condition of corn on September 1 to have been 84.3 as compared with 85 on August 1, 1902, 81.7 on September 1, 1901, 80.6 at the corresponding date in 1900 and a ten years average of 78.8.

Except in Kansas and South Dakota, which reported a decline of 12 and 10 points respectively during August, no material change of condition is reported from any of the principal corn states and except those of the south and the state of Michigan they again report condition averages in excess of their respective averages for the last ten years.

The average condition of harvest, of winter and spring wheat combined was 80 against 82.8 last year, 69.6 in 1900 and a ten year average of 78.9.

The average condition of oats when harvested was 82.2 against 79.7. While there will be an exceptionally large crop of oats there are indications that the crop will be very deficient in point of quality.

The average condition of barley when harvested was 89.7 against 83.8 last year, 70.7 in 1900 and 82 the mean of the averages for the last ten years.

The condition of harvest of winter and spring rye combined was 90.2 against 84.9 last year, 84.2 in 1900 and 85.4 the mean of the averages of the last ten years.

Of the eight principal sugar cane producing states Florida, Texas and Arkansas report improvement in condition during August, while Louisiana shows a decline of one point during the month. South Carolina and Mississippi two and Georgia and Alabama 4. All but two of the principal sugar cane producing states, Arkansas and Texas, show conditions below their ten year average.

An improvement in the condition of rice during August is reported in but one of the rice growing states, North Carolina, in which state an improvement of four points were made during the month. In Louisiana and South Carolina there was a decline of 2 points, Georgia 3, Florida and Alabama 4.

There is a decrease in the number of stock hogs now being fattened as compared with the number a year ago in every principal hog raising state except Pennsylvania where an increase of 1 per cent is noted. Report as to size and weight of stock hogs indicate a position above the ten year average in the four principal states, Iowa, Illinois, Tennessee and Pennsylvania.

ONE MORE ARRESTED.

Another Alleged Hoodler Alderman Under Arrest at St. Louis.
St. Louis, Sept. 11.—William Tamblin, former member of the house of delegates, who was indicted Monday on two charges of bribery in connection with the passage of the city lighting bill in February, 1899, was brought back from Cleveland, where he had been for two years. He is one of the members of the alleged combine that J. K. Murrell named on his confession to the grand jury after his return from Mexico. Tamblin, in custody of a detective, was taken to the jail and locked up pending the attempt to secure bail. The grand jury reconvened and took up the consideration of the lighting scandal of the last municipal assembly.

INVESTIGATION ASKED.

Ecclesiastical Property and Objects of Catholic Veneration on a Transport.
San Francisco, Sept. 11.—At a special meeting of the executive council of the Catholic Truth society it was unanimously resolved to send a dispatch to President Roosevelt regarding ecclesiastical property and other objects of Catholic veneration discovered on the United States army transport Bufford. The dispatch, which was signed by Philip O'Ryan, spiritual director of the society, requests an immediate and thorough investigation as to the original ownership and nature of this property and the manner in which it came into possession of the United States army officers. If an investigation shows that it is church loot we ask it to be returned immediately to the true owners, and that officers in whose possession it was found be summarily dealt with according to army regulations.

COTTON PICKERS POISONED

Seven Persons Die from Inhaling Fumes of Paris Green.

Paris, Tex., Sept. 11.—A report has reached this city of a wholesale poisoning, which is said to have occurred in the forks of Red river and the Kiamitia in the territory. A farmer about three weeks ago applied paris green to the cotton in the lower corner of his field next to the bottom where the boll worms were doing damage. There had been no rain scarcely since the paris green was applied. Three or four days ago several cotton pickers, four men and three women, went to work in the patch where the poison had been applied. Late in the evening they became sick and during the night all of them are reported to have died. Their death is said to have been caused by inhaling the dust of the poison.

No Arbitration Will Be Had.

New York, Sept. 11.—Mr. John W. Markle the head of the firm of G. B. Markle & Co., the largest of the individual coal operators in the anthracite field Wednesday made a statement respecting the proposed arbitration between the employers and the employees.

"There will be no arbitration," said Mr. Markle, "and no settlement of the coal strike in any way. We have not forgotten our experiences on a former occasion. There has been in existence from 1885 an agreement with the men in our employ providing for the settlement in an amicable way of all differences that arose, by arbitration. This has been repeatedly violated since."

Shooting of Texas Rangers.

Laredo, Tex., Sept. 11.—News has reached this city from Brownsville of the shooting of three members of the Texas state rangers near there by parties in ambush, supposed to be friends of a man recently killed by the rangers while being arrested on a charge of cattle stealing.

Ranger Robuck was instantly killed, Ranger Baker was slightly wounded, and Ranger Miller had his horse shot from under him, but escaped unscathed. Eight Mexicans have been arrested for alleged participation in the ambush attack on the rangers.

The body of the dead ranger was embalmed and shipped to his brother at Lockhart, Tex., where the interment will take place.

Mormons Ordered to Leave.

Texarkana, Tex., Sept. 11.—The United Charities, composed of the various ladies' benevolent societies of Texarkana, held a meeting and resolved that the two Mormon missionaries now canvassing this city must leave, and a committee of three was accordingly appointed to warn them to get out. The mormons received the committee civilly, but refused to accede to its demand, saying it was a free country and they had a right to worship God according to the dictates of their own consciences.

DIFFERENCES HEALED

Harmony Now Reigns Among the Republicans of Texas.

RESTORED BY GREEN

Lyon Will Be State Chairman, Hawley National Committeeman and Green Manager of Congressional Campaign in Texas.

Fort Worth, Tex., Sept. 11.—The Republican convention began work in earnest this morning. The first business was the report of the committee on permanent organization. The report was adopted. It named E. H. R. Green of Terrell as permanent chairman and L. S. Simmons of Marlin, secretary.

The feature of the morning session was a resolution endorsing President Roosevelt for president in 1904. Various speeches were made at that session.

There is a rumor out that the Green forces are backing George Burkitt of Palestine for governor.

Fort Worth, Tex., Sept. 11.—White winged peace reigns over Texas Republicans and all differences are things of the past. Reconciliation predominates the party leaders and great body of Republican voters, and through their accredited representatives in convention assembled here gave hearty approval of the settlement of differences. All these things were made possible by a joint conference held Wednesday afternoon between the leaders, the meeting having been arranged by a letter addressed to State Chairman Lyon by E. H. R. Green, who on Tuesday announcing that he was a harmony candidate for state chairman.

The gist of Green's letter was that he was ready and willing to leave the race since an adjustment had been accomplished. Mr. Lyon accepted the proffer of a conference, and at 1:30 p. m. State Chairman Lyon National Committeeman Hawley, Green, Wilcox of Austin, Postmaster Clifford of San Antonio and Federal Judge Burns of Houston, entered Lyon's headquarters. It was agreed that Lyon should be state chairman, Hawley national committeeman and temporary chairman of the convention and Green permanent chairman of the convention and manager of the congressional fight to be made in Texas.

It is learned that it was the wish of president that Texas Republicans get together and that he favored Lyon, and this, as much as anything else, had a salutary effect on the deliberations which followed in the conference.

Very little was accomplished at the afternoon session. There was a tableau when Lyon, Hawley and Green clasped hands in the center of the stage and announced the harmony program. The committee announced its decision on contests, committees were appointed and the convention adjourned for the night session.

At the night session the decision of the executive committee on all contests was ratified and the convention adjourned until this morning.

It is announced that a full ticket will be nominated because of the action of R. H. R. Green in withdrawing from the race for state chairman. Mr. Green has declined the nomination for governor and several names will probably be presented.

The following telegram was read at the night session. It was sent to E. H. R. Green by J. S. Clarkson of New York:

"The president is greatly pleased with your position and friendship. Relies on your power and good judgment. Hopes for a united party and harmonious action. He is especially anxious for the election of Republican congressmen from Texas."

No Fusion in Colorado.

Denver, Sept. 11.—The Democrats of Colorado have nominated Edward W. Stimson for governor, put the name of Thomas Annear of San Juan in second place on the ticket.

The platform reaffirms allegiance to the principles of Democrat faith as outlined at the national convention at Kansas City in 1900, an particularly allegiance to the cause of bimetallism, and asserted that Senator Henry M. Teller was one of the greatest of the nation's living statesmen.

The conference committee reported that the Populists had demanded three places on the ticket, had been offered one place and had rejected the offer. A resolution was then offered declaring for a straight ticket and inviting the Populists to join the Democratic party. It was adopted.

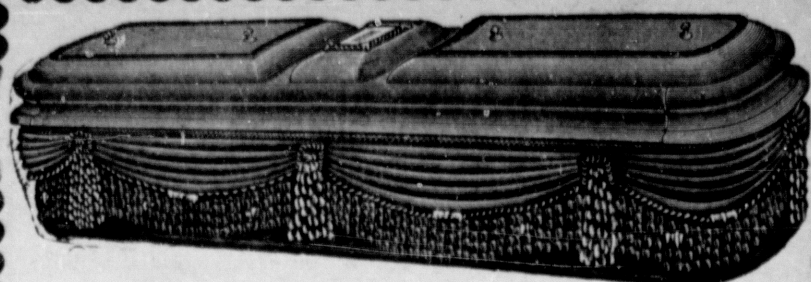

The Populist state convention, when it was learned the Democrats had decided against fusion, decided to place a full ticket in the field. Following nominations were made by acclamation:

Governor—Frank W. Owers.
Lieutenant governor—Thos. Annear.
Secretary of state—David A. Mills.
Congressman at large—B. H. Northcutt.

State treasurer—Jas. L. Hurt.
Attorney general—Chas. C. Post.
State auditor—Matthew J. Layden.
State superintendent of public school—Mrs. Helen M. Grenfels.

Blind Man Suicides.

Galveston, Sept. 11.—Lazarus Antonovitch, 55 years of age, died here as the result of morphine poisoning self-administered. Until the last few years he has been a screwman, but because of loss of sight became unable to perform this work and since then he has been supported through the benevolence of the Screwmen's association.

The Operators Claim More Men Are
Asking for Work.

IS NO INTERFERENCE

Strikers Gather but Do Not Molest the
Non-Union Men—No Concessions
Will Be Offered to the Men
to Return to Work.

Tamaqua, Sept. 11.—The Lehigh Coal and Navigation company claims more of the striking men have returned to work. No troops were sent out from Manila park. Although a number of strikers gather on the streets the non-union men are not interfered with.

Officials of Lehigh Coal and Navigation company, Philadelphia and Reading Coal and Iron company, and Pennsylvania Coal company ridicule the idea of concessions being granted the striking miners. They say if a settlement is made it must be on basis of unconditional surrender on the part of the strikers. The officials have been in close touch with President Baer and say they know what they are talking about.

A committee of citizens representing the People's Alliance left here for Harrisburg where they will hold a conference with Governor Stone.

THE IOWA IS AGROUND.

Runs into Land Off the Coast of South America Near Friars Island.

Rio de Janeiro, Sept. 11.—The United States battleship Iowa has run ground near Cape Nossa Senhora de Desterro. The Iowa had just finished target practice and was returning to Friars Island.

The Brazilian minister of marine has ordered a warship to go to the aid of the Iowa.

Cape Nossa Senhora de Desterro is on the island of Santa Catharina, 460 miles southwest of Rio de Janeiro.

The island is about half way between Montevideo, Uruguay, and Rio de Janeiro.

The Iowa is the flagship of the South Atlantic squadron. Rear Admiral Geo. W. Sumner is in command of the South Atlantic station. Captain Thomas Perry commands the Iowa. The cruiser Atlanta is the only other warship in the South Atlantic squadron.

PRINCE JOSEPH INDICTED.

He Is Charged With Violation of Criminal Law of England.

London, Sept. 11.—The grand jury in Old Bailey has returned a true bill against Prince Francis Joseph of Braganza, lieutenant in the Seventh Austria Hussars, and who was member of the Austro-Hungarian mission to the coronation of King Edward, charged with misconduct under the criminal law amendment. Hearing of the charges brought against Prince Francis Joseph of Braganza and other men took place in Southwark police station court early in July, and attracted much attention. Sir Edward Clark, former solicitor general, defended the prince. The prosecutor altered the charge from "felony" to "misconduct under the criminal law amendment." Sir Edward intimidated the defense will be conspiracy to rob and blackmail. Strict secrecy was observed by the court officials regarding the exact nature of the charges.

Refused to Commute Sentence.

Austin, Sept. 11.—The governor has declined to commute the death sentence of Vicente Sucedo to life imprisonment. Sucedo is in jail at San Antonio and was convicted of rape of his stepdaughter. He was to have been executed Sept. 5, but was granted a respite of two weeks, and now will be hanged Sept. 19. The governor has addressed a letter to Sheriff Tobin of Bexar county, in which he says he has carefully examined the applications for commutation, and is unable to reach any other conclusion other than that Sucedo is guilty.

Washington Republicans.

Tacoma, Wash., Sept. 11.—The Republican state convention adjourned Wednesday night, after the most exciting contest in the history of the party.

The trouble was over the railroad commission plank in the platform. The platform as reported by the committee was finally adopted. Judge Hadley was nominated for the supreme bench and Cushman Jones and W. E. Humphrey for congress. The adoption of the railroad commission plank is considered as a great victory for Gov. McBride.

Lexington Race Course Fo'd.

Lexington, Ky., Sept. 11.—The Kentucky association Race course has been sold by Charles Green of St. Louis to J. J. Douglass, of Louisville, Ky., for \$40,000. With Douglass are associated other well known turfmen by whom the new race association will be organized for Kentucky and the old racing

track at Louisville, Ky., will be turned into a circuit for the spring and fall running races, beginning next spring.

To Represent Texas.

Austin, Sept. 11.—The governor has appointed Major General Stacy, Col. Henry H. Chisholm of Austin, Colonel Cecil Lyer of Sherman and Major O. C. Drew of Houston, to represent the Texas Volunteers at maneuvers at Fort Riley, Kas. All the southern states will be represented.

FIGHT AT SANTA MARTA.

Revolutionists Mutilate Dead Government Troops and Destroy Railroads.

Kingston, Jamaica, Sept. 11.—The German steamer Valencia from New York, Aug. 23, for Cape Haytien and other ports, which has arrived here from Santa Marta, capital of the department of Magdalena, Colombia, brings news of a victory at Santa Marta by the Colombian revolutionists over the government forces.

Captain Grommeyer of the Valencia, says that last Friday the revolutionists made a desperate attack upon the outskirts of Santa Marta. The government troops were overwhelmed and forced to retreat, leaving behind them 100 dead. Immediately after the withdrawal of the government forces the rebels started to destroy the railroad tracks. They derailed several trains at various points, demolishing engines and cars, the latter being chiefly fruit vans. Several lives were lost in these wrecks.

Saturday the revolutionists occupied the banana district of Senega, where they continued to wreck the railroad at the same time, keeping up their advance toward Santa Marta. When the Valencia sailed from Santa Marta the revolutionists were so near the town that Captain Grommeyer could see the flashes of their guns. Some buildings in Santa Marta were then blazing, having been ignited by the few troops left there to oppose the attack of the revolutionists. The town at that time was expected momentarily to surrender.

Owing to the total destruction of the railroad the Valencia did not get her cargo of fruit at Santa Marta, and because of the seriousness of the situation the captain decided to put into Kingston for instructions.

Officers of the Valencia say that horrible atrocities were committed during the fighting by the rebels, who used machetes. Almost all of the government troops killed were found along the railroad track, their bodies being terribly mutilated.

Santa Marta is entirely cut off from communication with outside points and the residents of the port have sent an appeal by sea to Colon for protection. It is feared that the revolutionists will sack Santa Marta when they capture it. The stores there are closed and the greatest terror prevails.

The attack of the revolutionists was entirely unexpected and owing to their superior numbers the resistance of the government forces was half hearted. Officers of the Valencia do not think the Colombian government can get reinforcements into Santa Marta in time to save the town.

BIDS SARGENT FAREWELL.

Locomotive Firemen Escort Their Grand Master to the Train.

Chattanooga, Tenn., Sept. 11.—The Brotherhood of Locomotive Firemen convened at 9 o'clock Wednesday morning, and immediately adjourned to escort former Grand Master Frank P. Sargent to the depot. The entire convention drew up in line at the depot, and many, with tears in their eyes, bade farewell to Mr. Sargent, who has served the order for seventeen years as grand master. Mr. Sargent was called to Washington by his duties as commissioner of immigration.

In the afternoon the convention got down to work in earnest. The mass of correspondence and resolutions that had accumulated were referred to the proper committees. Practically all the resolutions were in reference to changes in the beneficiary laws of the constitution.

A resolution was introduced providing for the increase in the amount of insurance paid on the death of a member from \$1500 to \$3000. The resolution was referred to the committee on constitution and bylaws.

It is the general opinion of the grand officers that the session of the convention will extend over into the third week.

It is seventeen years since the brotherhood has been called on to elect a grand master, and there will be a spirited contest for the place. Acting Grand Master Hannahan is an avowed candidate.

There are now 620 delegates in attendance, including a number from Canada and Mexico.

The Denison Herald insists that
 this State needs industrial educa-
 tion worse than any State in the
 Union. The reasons are very ap-
 parent. The people have educated
 their children to be lawyers and
 doctors and teachers till the sup-
 ply is greater than the demand,
 few of them are accomplishing
 much more than to make both
 ends meet. All skilled laborers
 are doing well and prospering.

CONDITION OF CROPS

Corn Shows an Average Slightly Above Ten-Year Record.

OAT CROP IS LIGHT

Barley and Rye Show Good Average. Sugar Cane Improved in Only One State, Texas and Arkansas Above Average.

Washington, D. C., Sept. 11.—The monthly report of the statistician of the department of agriculture shows the average condition of corn on September 1 to have been 84.3 as compared with 85 on August 1, 1902, 51.7 on September 1, 1901, 80.6 at the corresponding date in 1900 and a ten years average of 78.8.

Except in Kansas and South Dakota, which reported a decline of 12 and 10 points respectively during August, no material change of condition is reported from any of the principal corn states and except those of the south and the state of Michigan they again report condition averages in excess of their respective averages for the last ten years.

The average condition of harvest, of winter and spring wheat combined was 80 against 82.8 last year, 69.6 in 1900 and a ten year average of 78.9.

The average condition of oats when harvested was 82.2 against 79.7. While there will be an exceptionally large crop of oats there are indications that the crop will be very deficient in point of quality.

The average condition of barley when harvested was 89.7 against 83.8 last year, 79.7 in 1900 and 82 the mean of the averages for the last ten years.

The condition of harvest of winter and spring rye combined was 90.2 against 84.9 last year, 84.2 in 1900 and 85.4 the mean of the averages of the last ten years.

Of the eight principal sugar cane producing states Florida, Texas and Arkansas report improvement in condition during August, while Louisiana shows a decline of one point during the month. South Carolina and Mississippi 2 and Georgia and Alabama 4. All but two of the principal sugar cane producing states, Arkansas and Texas, show conditions below their ten year average.

An improvement in the condition of rice during August is reported in but one of the rice growing states, North Carolina, in which state an improvement of four points was made during the month. In Louisiana and South Carolina there was a decline of 2 points, Georgia 3, Florida and Alabama 4.

There is a decrease in the number of stock hogs now being fattened as compared with the number a year ago in every principal hog raising state except Pennsylvania where an increase of 1 per cent is noted. Report as to size and weight of stock hogs indicate a position above the ten year average in the four principal states, Iowa, Illinois, Tennessee and Pennsylvania.

ONE MORE ARRESTED.

Another Alleged Hoodler Alderman Under Arrest at St. Louis.

St. Louis, Sept. 11.—William Tamblin, former member of the house of delegates, who was indicted Monday on two charges of bribery in connection with the passage of the city lighting bill in February, 1899, was brought back from Cleveland, where he had been for two years. He is one of the members of the alleged combine that J. K. Murrell named on his confession to the grand jury after his return from Mexico. Tamblin, in custody of a detective, was taken to the jail and locked up pending the attempt to secure bail. The grand jury reconvened and took up the consideration of the lighting scandal of the last municipal assembly.

INVESTIGATION ASKED.

Ecclesiastical Property and Objects of Catholic Veneration on a Transport.

San Francisco, Sept. 11.—At a special meeting of the executive council of the Catholic Truth society it was unanimously resolved to send a dispatch to President Roosevelt regarding ecclesiastical property and other objects of Catholic veneration discovered on the United States army transport Buford. The dispatch, which was signed by Philip O'Ryan, spiritual director of the society, requests an immediate and thorough investigation as to the original ownership and nature of this property and the manner in which it came into possession of the United States army officers. If an investigation shows that it is church loot we ask it to be returned immediately to the true owners, and that officers in whose possession it was found be summarily dealt with according to army regulations.

COTTON PICKERS POISONED

Seven Persons Die from Inhaling Fumes of Paris Green.

Paris, Tex., Sept. 11.—A report has reached this city of a wholesale poisoning, which is said to have occurred in the forks of Red river and the Klamitia in the territory. A farmer about three weeks ago applied paris green to the cotton in the lower corner of his field next to the bottom where the boll worms were doing damage. There had been no rain scarcely since the paris green was applied. Three or four days ago several cotton pickers, four men and three women, went to work in the patch where the poison had been applied. Late in the evening they became sick and during the night all of them are reported to have died. Their death is said to have been caused by inhaling the dust of the poison.

No Arbitration Will Be Had.

New York, Sept. 11.—Mr. John W. Markle the head of the firm of G. B. Markle & Co., the largest of the individual coal operators in the anthracite field Wednesday made a statement respecting the proposed arbitration between the employers and the employees.

"There will be no arbitration," said Mr. Markle, "and no settlement of the coal strike in any way. We have not forgotten our experiences on a former occasion. There has been in existence from 1885 an agreement with the men in our employ providing for the settlement in an amicable way of all differences that arose, by arbitration. This has been repeatedly violated since."

Shooting of Texas Rangers.

Laredo, Tex., Sept. 11.—News has reached this city from Brownsville of the shooting of three members of the Texas state rangers near there by parties in ambush, supposed to be friends of a man recently killed by the rangers while being arrested on a charge of cattle stealing.

Ranger Robuck was instantly killed, Ranger Baker was slightly wounded, and Ranger Miller had his horse shot from under him, but escaped unscathed. Eight Mexicans have been arrested for alleged participation in the ambush attack on the rangers.

The body of the dead ranger was embalmed and shipped to his brother at Lockhart, Tex., where the interment will take place.

Mormons Ordered to Leave.

Texarkana, Tex., Sept. 11.—The United Charities, composed of the various ladies' benevolent societies of Texarkana, held a meeting and resolved that the two Mormon missionaries now canvassing this city must leave, and a committee of three was accordingly appointed to warn them to get out. The Mormons received the committee civilly, but refused to accede to its demand, saying it was a free country and they had a right to worship God according to the dictates of their own consciences.

DIFFERENCES HEALED

Harmony Now Reigns Among the Republicans of Texas.

RESTORED BY GREEN

Lyon Will Be State Chairman, Hawley National Committeeman and Green Manager of Congressional Campaign in Texas.

Fort Worth, Tex., Sept. 11.—The Republican convention began work in earnest this morning. The first business was the report of the committee on permanent organization. The report was adopted. It named E. H. R. Green of Terrell as permanent chairman and L. S. Simmons of Marlin, secretary. The feature of the morning session was a resolution endorsing President Roosevelt for president in 1904. Various speeches were made at that session.

There is a rumor out that the Green forces are backing George Burkitt of Palestine for governor.

Fort Worth, Tex., Sept. 11.—White winged peace reigns over Texas Republicans and all differences are things of the past. Reconciliation predominates the party leaders and great body of Republican voters, and through their accredited representatives in convention assembled here gave hearty approval of the settlement of differences. All these things were made possible by a joint conference held Wednesday afternoon between the leaders, the meeting having been arranged by a letter addressed to State Chairman Lyon by E. H. R. Green, who on Tuesday announcing that he was a harmony candidate for state chairman.

The gist of Green's letter was that he was ready and willing to leave the race since an adjustment had been accomplished. Mr. Lyon accepted the proffer of a conference, and at 1:30 p. m. State Chairman Lyon National Committeeman Hawley, Green, Wilcox of Austin, Postmaster Clifford of San Antonio and Federal Judge Burns of Houston, entered Lyon's headquarters.

It was agreed that Lyon should be state chairman, Hawley national committeeman and temporary chairman of the convention and Green permanent chairman of the convention and manager of the congressional fights to be made in Texas.

It is learned that it was the wish of president that Texas Republicans get together and that he favored Lyon, and this, as much as anything else, had a salutary effect on the deliberations which followed in the conference.

Very little was accomplished at the afternoon session. There was a tableaux when Lyon, Hawley and Green clasped hands in the center of the stage and announced the harmony program. The committee announced its decision on contests, committees were appointed and the convention adjourned for the night session.

At the night session the decision of the executive committee on all contests was ratified and the convention adjourned until this morning.

It is announced that a full ticket will be nominated because of the action of R. H. R. Green in withdrawing from the race for state chairman. Mr. Green has declined the nomination for governor and several names will probably be presented.

The following telegram was read at the night session. It was sent to E. H. R. Green by J. S. Clarkson of New York:

"The president is greatly pleased with your position and friendship. Relies on your power and good judgment. Hopes for a united party and harmonious action. He is especially anxious for the election of Republican congressmen from Texas."

No Fusion in Colorado.

Denver, Sept. 11.—The Democrats of Colorado have nominated Edward W. Stimson for governor, put the name of Thomas Annear of San Juan in second place on the ticket.

The platform reaffirms allegiance to the principles of Democrat faith as outlined at the national convention at Kansas City in 1900, an particularly allegiance to the cause of bimetallicism, and asserted that Senator Henry M. Teller was one of the greatest of the nation's living statesmen.

The conference committee reported that the Populists had demanded three places on the ticket, had been offered one place and had rejected the offer. A resolution was then offered declaring for a straight ticket and inviting the Populists to join the Democratic party. It was adopted.

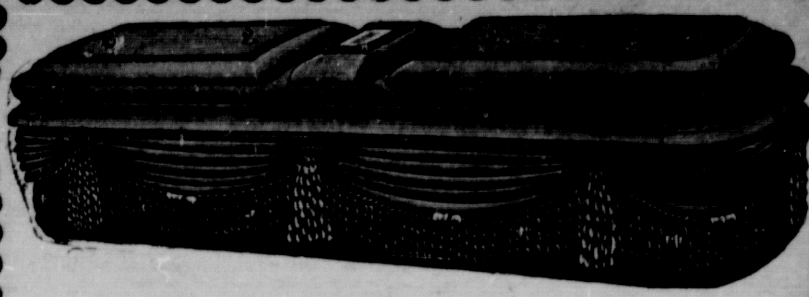

The Populist state convention, when it was learned the Democrats had decided against fusion, decided to place a full ticket in the field. Following nominations were made by acclamation:

Governor—Frank W. Owens.
Lieutenant governor—Thos. Annear.
Secretary of state—David A. Mills.
Congressman at large—B. H. Northcutt.

State treasurer—Jas. L. Hurt.
Attorney general—Chas. C. Post.
State auditor—Matthew J. Layden.
State superintendent of public school—Mrs. Helen M. Grenfels.

Blind Man Suicides.

Galveston, Sept. 11.—Lazarus Antonovitch, 55 years of age, died here as the result of morphine poisoning self-administered. Until the last few years he has been a screwman, but because of loss of sight became unable to perform this work and since then he has been supported through the benevolence of the Screwmen's association.
